DRILLING MACHINE

Spindle Type (D Series)

Small lightweight machine. Easy to disassemble, transport, and reassemble. Could be applied to any types of drilling engineering such as survey, injection work, and small-sized water well drilling, even in limited workspace.

Impregnated Diamond Core Bits

MULTIDRILL PL G

Compact and lowered drilling rig, very agile, designed for work in very confined spaces and inside buildings. Ideal for Foundations, Micropiles, Geotechnics and Surveys in very limited spaces.
